1946 TOWN WARRANT

In repard to improving the acoustic condition of the Town Hall, we find that by lowering the ceiling five feet, i. e., to the tops of the windows, and covering with acoustic material the acoustic condition will be improved up to 65%. We also feel that with the ceiling lowered the hall will be much easier to heat.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Hampton Falls:

I herewith submit to you my sixteenth report as Superintendent of your schools.

The Hampton Falls schools began the current year on September 10, 1945 with an initial enrollment of forty-one. Seventeen pupils were registered in the lower grades room with eleven in grade one. Since the other two grades registered a total of but six, the indications point toward larger school enrollment during the next few years. The upper room registers twenty-four. In addition, the district had fifteen pupils in junior high schools and twenty-eight pupils in senior high schools.

We are pleased to report that Miss Higgins is again teacher of the lower grades room. The chief objective of the work here is the teaching of the mechanics of reading. Miss Higgins has done this well. The children enjoy the work and the school.

Miss Mary Shelvey resigned during the December vacation. Miss Helen Berry, an experienced teacher, has been employed to teach the upper grades. Miss Berry came to us highly recommended and we have no doubt as to the preparation of our children under her guidance.

After a year without art instruction, Hampton Falls again offers drawing and art to its pupils. Miss Martin, the instructor, is a graduate of the Massachusetts School of Art and well recommended by the officials of that school.

Health is one of the seven cardinal objectives of educa-

tion. Mrs. Lindsey is our school nurse. Her work for our children is well and favorably known. Her report is included herewith and merits careful reading.

The chemical toilets installed in the school are now fifteen years old. Such installations can serve satisfactorily but a limited time. At present they are unsatisfactory. The school district is therefore faced with two alternatives. It must replace the present equipment with a duplicate of that system or it must find a more permanent solution.

Many school buildings are now being constructed without excavating. Such buildings have no basements. They can be heated, either by oil or hard fuel, through a forced hot air radiation. If such equipment can be provided in our school, it will make possible continuous heat. With twenty-four hour heat, approved water toilets are possible. An artesian well might be required although such an installation is supplied from a dug well in at least one school with a population of 140.

It is recommended that you seriously consider an installation which will include a forced hot air heating system serving the two class rooms, the toilets and the cloak rooms. Placing two water toilets and two lavatories along the south side of the entrance hall would do away with the present unsatisfactory conditions. If the present well can be used as the water supply, a good part of the cost could be met by the balance which it is estimated will be on hand at the end of the school year. With authority to use this money it would seem that work could be begun at once.

The pupils of Hampton Falls have contributed their share in the different war activities. Milk weed pods, rags and paper drives have been a part of the school program. The sale of stamps and bonds is a regular school activity. During the last complete school year \$511.20 was spent to pur-

chase stamps and \$468.75 for war bonds. As well as being a valuable lesson in patriotism, such purchases are also a lesson in thrift.

I wish to thank, once more, the school board for valued help in administering the schools of the district.

Respectfully submitted,

ROY W. GILLMORE,

Superintendent of Schools.

January 30, 1946.

VETERANS' EXEMPTION

"Every veteran who is a resident of this state and who served for thirty days or more in any war in which the United States has been engaged and received an honorable discharge *** and the wife or widow of any such veteran *** shall be exempt from taxation upon his taxable property to the value of one thousand dollars; provided that before April 15th of each year he shall file with the selectmen *** his application, under oath, showing that he and his wife do not own property, exclusive of any bona fide encumbrances thereon, to the value of five thousand dollars." If prompt filing is prevented by accident or mistake, selectmen may accept applications at a later date (73:29, 1944, 4:1). As noted above, the veteran must disclose, on the blank provided, all property of every kind which he and his wife own, totalling not over \$5000 in value exclusive of mortgages, in order to qualify for the \$1000 exemption. Since the financial condition of the veteran and his wife may change during any year, the application must be made annually.

Under exactly the same conditions, any veteran with total and permanent service-connected disability is entitled to an exemption of \$3000. (73:29, 1944, 4:1). Since determination of total and permanent disability by selectmen is difficult, it is recommended that all applications for the \$3000 exemption be referred to the tax commission for investigation.

Under the same conditions, a totally blind person, but not his spouse, is exempted to the extent of \$1000 provided he does not own property in excess of \$5000. In the three classes just mentioned, if a person "does not own the exemption limit in value of taxable property in the town where he resides, he shall be entitled to take the balance of such exemption in any other town in the state where he owns taxable property." (73:29, 1944, 4:1).
